## Total Solutions

Anixter Component Solutions is a division of Anixter International Inc., a leading distributor of communication products, electrical and electronic wire and cable, fasteners and other small components. With a presence in over 50 countries, Anixter employs more than 8,000 people throughout the world.

With over 40 years of experience in the manufacture and distribution of fasteners, cable management, protection and finishing products, coupled with our comprehensive design and sourcing teams, we are an ideal partner to supply all your component solutions.

## Customer Service

### The right parts, right time, right price!

- Millions of parts available from stock
- Non standard part sourcing to suit your exact requirements
- Free samples readily available
- External Sales Engineers available for advice and support
- Internal Personal Account Managers
- Dedicated Export Department
- Next day delivery
- Easy ordering- order by phone, fax, email or online

## Product Solutions

### Components to suit your exact requirements!

- Extensive product range: thousands of products – millions of applications
- Expanding product ranges now include: enclosures, communication & control cables, stainless steel fasteners, flexible caps
- Full colour catalogue with comprehensive technical information
- Product confidence: Sourced from World-Class manufacturers
- Supplier accreditation: All our suppliers are qualified using a rigorous vendor rating system
- Additional services: Kitting, dyeing, inventory management & bagging for your convenience
- ISO 9001:2008 & OHSAS:18001:2007 accreditation

RS00412

## Automotive Products – at a glance

Automotive products at a glance is a snap shot of the thousands of products we have to offer that are used extensively in automotive applications. Our full 392 page standard product catalogue is available to order on-line or through our Customer Services Team on +44 (0) 1202 865222. Our Industry leading on-line catalogue facilities offer a total product solution with complete technical information, 3D CAD data and 24/7 ordering facilities. To find out more, go to:

[www.anixtercomponents.com](http://www.anixtercomponents.com)

### Cable & Pipe Clips

- Pipe clips
- Push or screw fit cable clips
- In-air clips
- Adjustable cable clips
- Swivel clips
- Conduit clips
- Harness clips
- 'P' Clips

### Cable Protection

- Snap-fit bushes
- PVC and rubber grommets
- Liquid tight snap-in grommets
- Spiral & Split cable wrap
- Multi-hole grommets
- Snap-fit edge holders
- Grommet strip
- Heat shrink tubing

### Cable Ties & Markers

- Nylon cable ties
- Mountable ties
- Label Ties
- Heat & UV stabilised ties
- Velcro® hook & loop cable ties
- Stainless steel cable ties
- Mounting bases
- Colour coded cable markers

### Termination & Insulation

- Crimp Terminals
- Butt Connectors
- Cord End Ferrules
- Terminal Blocks
- Snap-on covers
- Push-on covers
- Terminal Bushings

# Technical Support & Bespoke Design

## Conduit & Fittings

- Nylon, Polypropylene or galvanised and stainless steel
- Sizes from NW7 to 48 (metric 10 to 50)
- Closed or split conduit
- Excellent cold impact resistance
- Wide range of connectors and accessories

## Caps & Plugs

- Tube end plugs for round, square or rectangular tubing
- Protection caps and plugs
- Threaded caps and plugs
- Hydraulic component caps
- Screw head and nut covers
- Hinged screw caps
- Decorative screw covers
- Masking caps and plugs

## Panel/Trim Fasteners

- Pine tree clips
- Trim fasteners
- 1/4-turn fasteners
- Panel rivets
- Screw rivets
- Drive rivets
- Push rivets
- Latches
- Captive expansion nuts

## Fasteners, Nuts, Washers & 'O' Rings

- Metric, unified and BA threads
- Nut styles: hexagon, washerfaced, wing and knurled
- Flat washers
- Locking & sealing washers
- Screw insulators
- 'O' Rings
- Lubricant-free polymer bearings

## Automotive Products – at a glance

### Metal Fasteners

- Cage nuts
- 'U' & 'J' nuts
- Torque nuts
- Edge clips - standard & 'S' type
- Cable edge clips
- Push-on fixes for round studs
- Stainless steel fasteners

### PEM® Brand Fasteners

- Self-Clinching male and female fasteners & fixings
- Access panel fasteners
- Broaching type panel fasteners
- Right angle clinch fasteners

## Typical Automotive Product Applications

- Cable harness and pipe routing
- Cable & wire identification
- Ingress protection of cables & pipes
- Wire termination
- Trim fastening
- Chassis fastening
- Compartment latching
- Compartment door motion damping
- Screw and fastener insulation
- Component protection
- Hole & thread protection
- Hole plugging and sealing
- Panel edge protection
- Paint masking

## Value Added Services — bagging, kitting & dyeing

### Bagging

Ideal for resellers, spare parts and maintenance supplies, our parts can be supplied prepacked in any pack size you require.

We can also print the bag with your part number, logo and bar code making the parts ready for immediate sale from your stores.

### Kitting

Ideal for use in laboratories, R&D departments or for spares and maintenance, we can supply a range of standard or bespoke component kits. The labels can also be customised to suit your own branding. Bagged kits can also be supplied.

### Dyeing

Due to the hygroscopic properties of Nylon, we are able to quickly and easily colour parts in a wide variety of colour shades. The process is ideal when producing a small quantity of coloured parts, or when multiple colours of a particular part are required. Colours can be supplied to standard Pantone or RAL references or matched to your colour sample. Dyed parts are ideal for colour coding, identification and colour matching.

Order online:

## One click and the search is over...

### Buyer

- Place orders — from anywhere in the world
- Search by keyword or part number
- Check the progress of all your orders
- View stock availability & your pricing structures
- Create 'Favourites' lists to reduce inputting
- Receive a discount for credit card payment

### Accounts Department

- Access your current statement
- Request copy invoices
- View details of your outstanding invoices

### Design Engineer

- View dimensional information and specifying notes
- View generic line drawings
- Download 3D CAD files in .stp format
- Request FOC samples
